### Independent Medical Education

Independent Medical Education (IME) is generally defined as education for healthcare professionals (HCPs) provided by an independent educational provider, such as a community hospital, academic center, society / association or medical education & communication company. Genentech / Roche supports grants for independent medical education in an effort to further the advance of medicine and healthcare by improving the knowledge of the medical community.

### VI Budget

- > Complete the Budget for the program
  - 1. Enter the Total Overall Budget

This is the sum of the budgets for all your "Program types"

Each "Program type" will have its own budget page

The Total Overall Budget includes all expenses for the event / activity, including expenses that will not be covered by the requested amount

2. Entered so far

This amount is automatically calculated as you enter the budget items in the table below

- 3. Select the Category See Appendix A for a complete list of categories
- Select the Subcategory See Appendix A for a complete list of subcategories
- 5. Enter the Amount by item *Please be sure to break down the expenses particularly for hotel, travel, and meals. These must show per person cost*
- 6. Enter the Quantity
- 7. Enter an Explanation / Description of the budget item
- 8. Click "Add Line Item" for the next budget item
- 9. Track the Budget Total

The Budget Total is calculated automatically The Budget Total has to be equal to the Total Overall Budget entered above

Repeat process steps as described above for all "Program types"

 Click "Save and Continue"
 If you have any empty lines, you will need to delete them in order to proceed

### TIPs: Entering the Budget

- All budget line items should be entered using the available category and subcategory available in the online system.
- 2. Budget items should be broken down using the per unit value in each amount column and the number of units in the units column.
- 3. To navigate effectively, use of the TAB key is helpful.
- 4. The use of the Microsoft Internet Explorer browser is not recommend, but will still function.
- 5. Do not enter any \$-sign's or decimal values.
- 6. Refrain from using the Misc. Other line item category, though if necessary, make sure detailed information is entered into the comments section.
- 7. Refrain from using the Infrastructure line item category, though if necessary, make sure detailed information is entered into the comments section.
- 8. Confirm that all line items (i.e. meals, honoraria, lodging, and airfare, etc.) are properly broken down before submission.

### Appendix B – Implementation Plan Guidelines

#### Grant requestors are required to submit an Implementation Plan for all grant requests.

Genentech is interested in understanding elements of activity execution. The purpose of this understanding is not to exercise any level of control over the activity, but to assess whether the elements of the proposed activity are consistent with the provider's stated objectives and their ability to achieve them

- > Explain how you intend to execute the activity?
  - · Include likely location/s (city, state) for one or a series of live meetings
  - · Include distribution / portal information for a multimedia initiatives
  - Include the timeline for project planning and implementation
  - Include an overview of your faculty identification and selection process
- > Provide the format for the program (didactic, case based, interactive)
- > Explain the educational method(s) used, including the significance or uniqueness of your approach
- > Explain how you intend to ensure scientific rigor, accuracy and fair balance in the program content
- > What are the roles and qualifications for all of the educational partners, including the accredited provider and third parties?
  - · Demonstrate understanding of the topic being addressed
  - · Demonstrate therapeutic / scientific expertise
  - · Demonstrate expertise in adult learning
  - Demonstrate expertise in execution relative to the type of program (live meeting, enduring material, multimedia)
- > Explain how you intend to generate participation in the program?
  - Include target audience / reach plans
  - · Include a description of your opt-in process for recipients of enduring materials or multimedia programs
  - Include audience generation plan
  - Include program promotion plan (if appropriate)
- > Have you conducted similar initiatives in the past?
  - Include specific examples
  - · Include screen shots or live links for multimedia programs

**Genentech** A Member of the Roche Group

### Appendix C – Needs Assessment Guidelines

All requests for funding from Genentech must include a needs assessment that clearly defines the unmet educational need or gap the activity will address. Once the educational need is determined, a documented Needs Assessment can be formulated with associated Learning Objectives. The needs assessment must be documented and referenced. Please note that the Learning Objectives are not the same as the Needs Assessment. Rather, they should support the stated need

- > What is the identified educational void or gap being addressed through the proposed education?
  - Indicate whether the education will address a knowledge gap or practice gap
  - · Describe the specified knowledge gap or practice gap
- > Who is the intended audience for the proposed education?
  - Why?
- > What are your sources to substantiate your statement that this is an unmet educational need? Some examples of acceptable sources for a Needs Assessment include the following
  - Expert Data
    - Expert data may be derived from sources including:
    - Literature searches of peer-reviewed medical literature
    - Advisory Board feedback (independent of Genentech)
    - Expert practitioner / though-leader interactions
  - Market Research on Professional Needs
    - Participant data may be derived from potential sources including:
    - Focus panels
    - Medical education feedback
    - Survey(s) of the proposed target audience
  - Observed Data
    - o Observed Data may be derived from a number of sources, including
    - National and regional data from national research instituted and healthcare professional organizations (CDC, NIH, other)
